# INID CODES FOR IDENTIFICATION OF BIBLIOGRAPHIC DATA

## INVENTIONS, UTILITY MODELS

- (10) Number of publication for application, which has been examined
- (11) Number of patent and kind of document
- (21) Serial number of application
- (22) Date of filing of the application
- (23) Date of exhibition or the date of the earlier filing and the number of application, if any
- (24) Date from which patent may have effect
- (31) Number of priority application
- (32) Date of filing of priority application
- (33) Code of the country or regional organization allotting priority application number
- (44) Date of publication of application not granted, but examined and number of bulletin
- (45) Date of publication of registered document
- (51) International Patent Classification Index

- (54) Title of the invention
- (57) Abstract
- (60) Number of examined patent document granted by foreign patent office, date from which patent has effect and country code
- (62) Number of the earlier application and in case of divided application, date of filing an application
- (71) Name, surname and address of applicant (country code)
- (72) Name, surname of inventor (country code)
- (73) Name, surname and address of patent owner (country code)
- (74) Name, surname of representative or patent attorney
- (85) Date of commencement of the national phase of International Application
- (86) Number and date of filing of international application
- (87) Number and date of publication of international application
- (94) Calculated date of expiry of the SPC or the duration of the SPC

## DESIGNS

- (10) Number of publication for application
- (11) Number of patent and kind of document or number of registration
- (15) Date of registration/Date of patent renewal
- (18) Expected expiration date of patent or registration
- (21) Serial number of application
- (22) Date of filing of the application
- (23) Date of exhibition or the date of the earlier filing and the number of application, if any
- (24) Date from which patent may have effect
- (28) Number of designs included in the application
- (30) Data relating to priority (number of application, date of filing of application, two-letter code identifying the authority with whom the priority application was made)
- (31) Number of priority application
- (32) Date of filing of priority application
- (33) Code of the country or regional organization allotting priority application number
- (34) Two-letter code according to WIPO St.3 identifying the authority with which the priority application was made
- (44) Date of publication of design and number of bulletin (the first publication)
- (45) Date of publication of design registered by WIPO and number of bulletin

- (51) International Classification for designs (class and subclass of the Locarno Classification)
- (54) Title of the invention
- (55) Reproduction of the design
- (57) Description of characteristic features of the design including indication of colors
- (58) Date of recording of any kind of amendment in the Register
- (62) Number of the earlier application, registration and document number and if available the date of filing an application in case of divided application
- (71) Name, surname and address of applicant (country code)
- (72) Name, surname of creator (country code)
- (73) Name, surname and address of patent owner (country code)
- (74) Name, surname of representative or patent attorney
- (81) Contracting states concerned
  - II designated contracting states according to the 1960 Act
  - III designated contracting states according to the 1999 Act
- (85) Owner's permanent address
- (86) Owner's nationality
- (87) Owner's residence
- (88) State in which the owner has a real and effective industrial or commercial establishment

## TRADEMARKS

- (111) - Number of registration
- (151) - Date of registration
- (156) - Date of the renewal
- (181) - Expected expiration date of registration
- (186) - Renewal expiration date of registration
- (141) - Date of cancel of duration of the mark
- (210) - Serial number of application
- (220) - Date of filing of the application
- (230) - Data concerning exhibition
- (260) - Number of application, for which favorable decision of examination about registration has been taken (publication number)
- (310) - Number of the first application
- (320) - Date of filing of the first application
- (330) - Code, identifying national or regional Office where the first application was made
- (511) - International Classification of Goods and Services for the purposes of registration of trade marks and/or list of goods and/or services classified according thereto
- (526) - Disclaimer
- (531) - Description of figurative elements of Trade Marks according to the International Classification of the Figurative Elements of Marks

- (540) - Reproduction of Trade Mark
- (550) - Nature and kind of Trade Mark
- (551) - Indication to the effect that the mark is a collective mark, a certification mark or a guarantee mark
- (554) - Three-dimensional mark
- (580) - Date of recording of any kind changes in respect of applications or registrations
- (591) - Information concerning colors claimed
- (731) - Name and address of the applicant
- (732) - Name and address of the holder of the registration
- (740) - Name and address of the representative
- (750) - Addreses for correspondence
- (770) - Name and address of the previous applicant or holder in case of change in ownership
- (771) - Previous name and address of the applicant or holder in case of change in ownership
- (791) - Name and address of the licensee
- (793) - Indication of conditions and/or restrictions under the license (Type of license, number of license agreement, data of license, data of validity of license)
- (800) - Certain data relating to the international registration of Trade Marks under the Protocol Relating to Madrid Agreement (International registration number
- (852) - Partial cancellation of the list of goods and services
- (891) - Date of subsequent designation

## CODES FOR PUBLICATION IN BULLETIN

- (54) DEVICE FOR TEA LEAF ROASTING  
(57) A device includes cylindrical case 3 for tea leaf roasting placed in heat-insulating casing 2 having tea leaf receiver, lid, drying zones, screw conveyor 6 placed therein, and mixing and circulating blades 7 in said zones between the coils. Tea leaf supply device – screw conveyor-type hopper-dispenser is connected to said casing in tea leaf receiving zone, and screw conveyor-type transporter 5 and screw conveyor placed in cylindrical case are kinematically connected to each other and have common drive 11. Copper tube 9 is spirally wound on casing of tea leaf supply and placed in heat-insulating casing 10. The device has cylindrical case surface heating means – inventory heater, onto the energypower 12 whereof the power unit 13 is switched, which is copper tube spirally wound around cylindrical case. Furthermore, the unit is equipped with circulation system with cooling

liquid moving in spiral-coiled copper tube in inventory heater and on the casing of tea leaf supply device, which is executed as a valve 15 and a pump 16 connected therewith the pipes 14.

 (54) METHOD FOR ELECTROCHEMICAL  
 ENRICHMENT OF LOW QUALITY  
 RAW MANGANESE  
 (57) A method for electrochemical enrichment of low  
 quality raw manganese provides electrochemical  
 discharge of raw material by electrolysis with indirect  
 electrochemical reduction of raw MnO<sub>2</sub> and parallel

reduction of  $Fe_{3+}$  to  $Fe_{2+}$  ions in the electrolyzer by electrolytic manganese diode at the anode – electro-synthesis; in addition, usage of large electrolyzer, and the electrode passing through the carbon cage is taken as a cathode. The concentration of iron ions in the solution is 1.5-2.5 g/l, and the solution passed through the cathode is delivered from the electrolyzer to the accumulation of raw manganese, and the solution obtained by leaching into the mass is returned to the anodic area of electrolyzer without filtering.

(54) MECHANICAL GRAPE PRESSURE

(57) A pressure includes perforated raw material hopper 2, handle screw pressing 6-10, and juice receiving capacity 3 mounted on common bottom 1; at that, raw material hopper is removable and fixed with componentry to be placed on the receiving plane. Screw pressing is attached to rotating frame 5 attached to base shafts 4. The pressure is equipped with grape-pressing device 12, 13 additional rotating frame 11, and receiving plane thereof is disposed perpendicular relative to the plane of screw pressing attachment onto rotating frame, and istalled capable to be: placed above the hopper and open.

The method provides determination of oscillating spectra based on the signal scattered by a virion (viral nanostructure) irradiated with electromagnetic wave. To determine the significance of virus viral frequency, first of all the dielectric and magnetic permeability, geometrical dimensions, and structural uniformity parameters thereof are measured, and then an algorithm for calculating the scatter of signal scattering wavelengths, and the wavelength of resonant scattering wave by the system is construed.

1 – Chemical preparations not for medical use; chemical preparations for scientific use; reagents for chemical analyses; diagnostic preparations and materials for scientific and research use; diagnostic preparations and materials for laboratory or industrial use; analytical and diagnostic testing kits for laboratory and industrial use (diagnostic test materials other than for medical use); analytical and diagnostic testing kits for scientific and research use (diagnostic test materials other than for medical use); analytical and diagnostic testing kits for scientific and research use namely reagents and buffers; analytical and diagnostic testing

kits for industrial and laboratory use namely reagents and buffers; PCR kits namely diagnostic test materials other than for medical use; PCR kits namely reagents and control samples not for medical diagnostic or veterinary diagnostic use; chemical compounds for laboratory or industrial use namely oligonucleotides, polynucleotides, synthetic genes; chemical compounds for scientific use and non-medical research use namely oligonucleotides, polynucleotides, synthetic genes; peptide microchips and DNA microchips of a chemical nature; DNA microarrays of a chemical nature; peptide microarrays of a chemical nature; biochips of a chemical nature; oligonucleotide sets for DNA microchips of a chemical nature namely chemical compositions and materials for scientific, laboratory, industrial or research use; oligonucleotide sequences for DNA microchips namely chemical compositions and material for scientific use; gene libraries as collections of DNA and RNA fragments, fragments, variants or combination of genes, of a chemical nature, prepared and offered for sale, for scientific or research use, for industrial or laboratory use not for medical or veterinary use; genetic engineering materials, including genes, fragments and combinations thereof, all these products being chemical compositions and materials for scientific use, laboratory use, industrial use or research; ELISA-based and other antibody-based kits not for medical use (diagnostic test materials other than for medical use); ELISA-based and other antibody-based kits namely, test strips and dipsticks, microtiter plates, coated test tubes and magnetic particles for detection of chemical and biochemical and biological molecules or parts thereof for scientific, laboratory and industrial use and not for medical diagnostic use; analytical standard solutions for detection of chemical or biochemical molecules for scientific, laboratory and industrial use and not for medical diagnostic use; chemically-modified magnetic beads for binding chemical or biochemical compounds for detection of chemical and biochemical compounds for scientific, laboratory and industrial use and not for medical diagnostic use; reagent kits comprised of proteins, polypeptides and chemical reagents not for medical use.

42 – Scientific and industrial research; research and development in the fields of animal and plant biology, physical chemistry, food chemistry, microbiology, molecular biology, epidemiology, immunology, chemistry, biochemistry; research and development in the food and feed industries; research and development for environment testing and field sampling for air, soil, sediment, water, waste, gas, soil gas; carrying out physical, chemical, physical-chemical, biochemical, biological, epidemiological, microbiological, molecular biological or immunological analyses in the fields of plant and animal products; carrying out physical, chemical, physical-chemical, biochemical, biological, epidemiological, microbiological, molecular biological or immunological analyses, clinical and in-vitro

studies in the food and feed, agro-food, chemical, pharmaceutical, cosmetic, health, environmental, agrochemical, biotechnology, aerospace, automobile, consumer products, semiconductor, electronics, energy, magnetic storage and any science-oriented industries; carrying out genetic analyses in the fields of plant and animal products; carrying out genetic analyses in the food, feed, agro-food, chemical, pharmaceutical, cosmetic, health, biotechnology and consumer product industries and in environmental testing; carrying out nuclear magnetic resonance analyses in the food, feed, agro-food, chemical, pharmaceutical, cosmetic industries and in environmental testing; scientific and industrial research; development of methods namely establishment and carrying out of physical, chemical, physical-chemical, biochemical, biological, epidemiological, microbiological, molecular biological, immunological and biomolecular testing methods; preparing scientific, medical or industrial expert reports for scientists and engineers; technical project studies; professional consultancy in the field of scientific research and medical treatments; DNA, RNA and virus analyses for scientific purposes; technical project studies; design of gene libraries such as collections of DNA and RNA fragments, variants or combination of genes, of chemical nature or for medical or veterinary use; scientific and technological services namely, research, analysis, inspection, quality audit, consulting, design, engineering, development and laboratory testing services for others; sample taking services and services for the collection of material for environmental, agro-food, food and feed and genetic testing; on-line data provision, data interpretation, consultancy and advisory services related to environmental, agro-food, food and feed testing services; scientific and technological services related to the development, commercialization, life cycle management, improvement and regulatory compliance of products manufactured by pharmaceutical, agrochemical, chemical, biotechnology, aerospace, automobile, consumer products, semiconductor, electronics, energy, magnetic storage and other science-oriented industries; consulting and advisory services related to analytical techniques, regulatory requirements and product development processes; consulting and advisory services related to the development, life cycle management, improvement and regulatory compliance of products manufactured by pharmaceutical, agrochemical, chemical, biotechnology, aerospace, automobile, consumer products, semiconductor, electronics, energy, magnetic storage and other science-oriented industries; product development, manufacturing and advisory services for others; database design and development; analysis and provision of online information about industrial analysis and research services; analysis and provision of scientific research information, data analysis and results from an online searchable database; information technology (IT) services including online searchable databases and algorithms, for managing

and providing scientific analysis results based on genomics data; analysis and provision of online information in the field of technological research from a computer database or the Internet; food product and beverage certification services [quality control]; accreditation services [certification of competence and quality] in the field of food and drink industries; accreditation services [certification of competence and quality] in the field of scientific analysis; testing, analysis and evaluation of the goods and services of others for the purpose of certification; testing, analysis and evaluation of the goods and services of others to determine conformity with certification standards; testing, analysis and evaluation of the goods and services of others to determine conformity with certification standards in the field of scientific analysis; carrying out experts test panels namely sensory analysis; carrying out consumer test panels namely sensory analysis; product testing including digital testing and cyber security testing; consumer product safety testing; product quality control testing; product safety testing; testing of new products; consultancy relating to consumer product safety testing; design and testing for new product development; design and testing of new products; development and testing of chemical production methods; quality control testing of products for certification purposes; scientific and technical research for others for pharmaceuticals, biotech products and chemicals; scientific and technical research for others in the field of physical testing, acoustic testing, flowability, atmosphere testing, electric and electronic safety testing; pharmaceutical drug discovery services; development and research in the pharmaceutical, biotechnological, chemical and agro-chemical fields; clinical trials for pharmaceutical drugs; research services in the areas of genomics, proteomics, chemistry, pharmacology, biology, epidemiology, medicinal chemistry, organic and inorganic chemistry, synthetic chemistry, analogue chemistry and computational chemistry; providing information in the field of epidemiology, genomics and proteomics of living organisms including human beings based on existing biological data by using information technology tools and techniques; clinical trials for pharmaceutical, products, cosmetics and personal care products; services for ensuring safety and efficiency of pharmaceutical drugs; computer services, namely use of information technology tools and techniques to work with existing biological data and to generate information on the epidemiology, genomics and proteomics of living organisms including human beings through research and study, all these services included in this class; scientific and technological services namely scientific and medical laboratory services, laboratory research and development in the fields of epidemiology, biomedicine and biobanking; quality audit (quality control) in the field of hygiene in hospitals, food industry, restaurants, hotels and retailers' sites or any public places; technical and scientific audits and

onsultancy in the consumer product industry, food industry, hospitality industry and in retailers' sites; product quality inspection for consumer products, food and feed industry and healthcare industry; quality audit services in the field of systems and certification according to national and international standards in the consumer product industry, food and feed industry, hospitality industry and healthcare industry; environmental impact studies; environmental impact studies for pharmaceuticals, veterinary products, agrochemicals and chemicals; consultation and analysis services in the fields of biotechnology, pharmaceutical research and development, diagnostics and drug therapy; pharmaceutical, biopharmaceutical and clinical research and development for others; services related to the development of veterinary products and their applications; testing and support services for the registration of veterinary products and their applications; DNA, RNA and virus testing for scientific purposes; DNA and RNA examination for scientific purposes.

44 – Medical services for blood testing, saliva, urine, tissue, hair and body fluid testing services; serological and urinary testing services for medical, epidemiological and veterinary use; medical testing services in the field of epidemiology and genetics; DNA, RNA and virus analyses for medical purposes; DNA and RNA screening for medical purposes; medical and health services in connection with DNA and RNA; genetic testing for medical use; hospital services; medical assistance and medical services in the field of epidemiology and genetics; medical clinic services; medical consultation services; genetic and epidemiological consultation; medical equipment rental; provision of medical record services online except in the dentistry field; human fertility treatment services; hygiene and beauty care for human beings and animals; collection, sampling and preservation of human blood, saliva, urine, tissue, hair and body fluids; medical testing for diagnostic and epidemiological use; testing, monitoring and reporting of medical diagnosis in the field of cardiovascular diseases; providing information relating to cardiovascular health and cardiovascular health examination; medical services, namely health and well-being programs in the field of cardiovascular disease; medical testing for diagnostic and treatment purposes, namely for genetic causes of lipid abnormalities; medical diagnostic testing in the field of diabetes; medical testing for diagnostic purposes in the field of preventive medicine; carrying out test panels in the field of preventive medicine; medical services namely preventive medicine and tests in the field of micro-nutrition; medical diagnostic testing in the field of sports; medical diagnostic testing in the field of antiageing medicine; medical assistance services in the field of preventive medicine; carrying out medical biology test panels, interpretation of medical biology test results; bio-pathological information and advice relating to medical biology tests; testing for as-

sessing immunogenicity, hypersensitivity and adverse immune stimulation; allergy and immunology testing; infectious disease screening; prenatal diagnostic testing for medical use; prenatal diagnostic testing; genetic counselling; human fertility treatment services; seed phenotyping and seed breeding services; seed development services; services related to compliance with seed breeding regulations, namely application support for plant breeders' rights.
