## DESIGNS

- (10) Number of publication for application
- (11) Number of patent and kind of document or number of registration
- (15) Date of registration/Date of patent renewal
- (18) Expected expiration date of patent or registration
- (21) Serial number of application
- (22) Date of filing of the application
- (23) Date of exhibition or the date of the earlier filing and the number of application, if any
- (24) Date from which patent may have effect
- (28) Number of designs included in the application
- (30) Data relating to priority (number of application, date of filing of application, two-letter code identifying the authority with whom the priority application was made)
- (31) Number of priority application
- (32) Date of filing of priority application
- (33) Code of the country or regional organization allotting priority application number
- (34) Two-letter code according to WIPO St.3 identifying the authority with which the priority application was made
- (44) Date of publication of design and number of bulletin (the first publication)
- (45) Date of publication of design registered by WIPO and number of bulletin
- (51) International Classification for designs (class and subclass of the Locarno Classification)
- (54) Title of the invention
- (55) Reproduction of the design
- (57) Description of characteristic features of the design including indication of colors
- (58) Date of recording of any kind of amendment in the Register
- (62) Number of the earlier application, registration and document number and if available the date of filing an application in case of divided application
- (71) Name, surname and address of applicant (country code)
- (72) Name, surname of creator (country code)
- (73) Name, surname and address of patent owner (country code)
- (74) Name, surname of representative or patent attorney
- (81) Contracting states concerned  
II designated contracting states according to the 1960 Act  
III designated contracting states according to the 1999 Act

7 – Condensing installations, namely, air condensers, air cooled condensers, axial fan condensers, steam condensers, refrigeration condensers; steam engines; pumps (machine or engine parts, machinery), pumps for heating installations, pumps for cooling installations, vacuum pumps, centrifugal pumps, lubricating pumps, refrigerant recovery pumps; regulators [parts of machines]; heat exchangers [parts of machines]; compressors, in particular refrigerant compressors for heating installations; refrigerant compressors for cooling installations, compressors for refrigerators, compressors for recovering and recycling refrigerant gases; heat sinks for use in machines; radiators [cooling] for motors and engines.

9 – Apparatus and instruments for conducting, switching, transforming, accumulating, regulating and controlling the distribution of electricity; apparatus and instruments for regulating and controlling pressure, temperature, fan speed, noise or water; electronic control circuits for electric fans; electronic control circuits for electric valves; computer software and computer programs; computer application software for use in implementing the Internet of Things [IoT]; sensory software, electrical connecting plugs; plasma display apparatus; electric installations for the remote control of industrial operations; sensors, namely coolant-temperature sensors, pressure sensors, sensors for use in the control of engines, electronic control sensors for motors; refrigerant meters; refrigerant scales; electric

cal and thermal controls; programmable controllers; wireless controllers to remotely monitor and control the function and status of other electrical, electronic, and mechanical devices or systems; central processing unit coolers; electronic process control units, namely industrial process control hardware and software for cooling and heating processes; climate control digital thermostats; diagnostic, monitoring, heat regulating and testing apparatus, not for medical purposes; all the aforesaid goods in particular in relation to refrigeration, cooling, air conditioning, purifying, heat and heat exchanger technology.

11 – Apparatus for heating, steam generating, refrigerating, drying, ventilating and water supply purposes; heat exchangers not being parts of machines, in particular lamellar heat exchangers, plate heat exchangers, tubular heat exchangers; fittings for heat exchangers; cooling installations and machines, in particular oil coolers, air coolers, glycol dry coolers, water dry coolers, water cooling towers; refrigerant condensers; freezers; shock frosters; dry cooling apparatus for cooling media; refrigerating machines; refrigerating containers; chilling chambers, coolers for furnaces; refrigeration units; refrigerating apparatus, appliances and installations; ice machines and apparatus; freezing machines; cooling installations for liquids; driers for refrigeration systems; chiller units being parts of water cooling installations; cooler pipes; finned tubes; heating and cooling apparatus and equipment for waste heat recovery; installations for the cooling of air; air conditioning fans; filters for air conditioning; air conditioning and parts of air conditioning systems; ventilating installations; ventilator frames; air conditioning panels for use in walk-in coolers; air heating apparatus; evaporators, in particular industrial high-performance evaporators, shell tube evaporators and heat pump evaporators; heating installations; gas boilers; gas condensers, others than parts of machines; condenser tubes; air heaters; level controlling valves in tanks; regulating and safety accessories for water apparatus; heat regenerators; heat accumulators; electric radiators, heat pumps, heat sinks for use in cooling apparatus; heat sinks for use in ventilating apparatus; heat sinks for use in heating apparatus; air purifying apparatus and machines, air filtering installations and apparatus, germicidal lamps for purifying air and water filtering installations; air filters for industrial and household use; water distribution installations; parts of the all above goods included in this class.

35 – Collective buying services, commercial evaluation services, auctioneering, commercial information agency services, import-export agency services, online information and ordering services in the field of refrigeration, cooling, air conditioning, purifying, heat and heat exchanger technology; retailing and wholesaling, mail order services and online retail and wholesale services in the field of refrigeration, cooling, air conditioning, purifying, heat and heat exchanger tech-

nology, in particular in relation to condensing installations, condensers, pumps, compressors, heat exchangers, heat sinks, radiators, software, control systems, sensors, monitoring, test and heat regulating systems, refrigerating apparatus, machines and installations, cooling apparatus and machines, heating apparatus and installations, air conditioning apparatus and installations, air purifying installations, water distribution installations and water cooling towers and in relation to parts of these goods; consultancy in the field of procuring goods and services in the field of refrigeration, cooling, air conditioning, purifying, heat and heat exchanger technology; providing of business and commercial information and consultancy for consumers in the field of refrigeration, cooling, air conditioning, purifying, heat and heat exchanger technology.

37 – Installation, cleaning, repair, general overhaul and maintenance in relation to refrigerating apparatus and installations, cooling equipment and machines, refrigerating machines, heat exchangers, heating apparatus, pumps, condensers, condensing installations, air conditioning apparatus and installations, air filtering and purifying installations, water distribution installations and water cooling towers and parts of these goods; construction management services; interference suppression in electric apparatus and in air conditioning installations and apparatus; construction consultancy; advisory services and rental of objects in connection with the providing of the aforesaid services, included in this class; all aforesaid services in particular in relation to refrigeration, cooling, air conditioning, purifying, heat and heat exchanger technology; all aforesaid services not in relation to apparatus and machines for the manufacture or processing of food.

40 – Recycling, in particular of heat exchangers; rental of cooling apparatus, refrigerating apparatus and installations, cooling machines, refrigerating machines, heat exchangers, heating apparatus, pumps specially adapted for heating or cooling installations, condensers as a part of heating installations, condensing installations, air conditioning apparatus and installations, air filtering and purifying installations, water distribution installations specially designed or adapted as a part of heating or cooling apparatus and installations and water cooling towers as a part of heating or cooling apparatus and installations.

42 – Scientific and technological services; industrial analysis and research services; material testing, technical testing, in particular technical testing of heat exchangers for reusability, corrosion, material fatigue, wear, fracturing and leak tightness; technical testing and measurement services in relation to performance and energy consumption of heat exchangers; design, development, planning and civil engineering services; research and development of installations, technological processes and products; architectural and urban planning services and correspondent consultancy ser-

vices; design and development of computer software; IT services, namely development, programming and implementation of software; cloud computing; hosting of computer sites (websites); software as a service (SaaS); monitoring of computer systems by remote access; testing, authentication and quality control; technological consultancy; providing technical advice relating to energy-saving measures; consultancy relating to energy use and energy efficiency; advisory services relating to industrial engineering; all aforesaid services in particular in relation to refrigeration, cooling, air conditioning, purifying, heat and heat exchanger technology; all aforesaid services not in relation to apparatus and machines for the manufacture or processing of food.
