- (44) Date of publication of application not granted, but examined and number of bulletin
- (45) Date of publication of registered document
- (51) International Patent Classification Index

- (54) Title of the invention
- (57) Abstract
- (60) Number of examined patent document granted by foreign patent office, date from which patent has effect and country code
- (62) Number of the earlier application and in case of divided application, date of filing an application
- (71) Name, surname and address of applicant (country code)
- (72) Name, surname of inventor (country code)
- (73) Name, surname and address of patent owner (country code)
- (74) Name, surname of representative or patent attorney
- (85) Date of commencement of the national phase of International Application
- (86) Number and date of filing of international application
- (87) Number and date of publication of international application
- (94) Calculated date of expiry of the SPC or the duration of the SPC

## DESIGNS

- (10) Number of publication for application
- (11) Number of patent and kind of document or number of registration
- (15) Date of registration/Date of patent renewal
- (18) Expected expiration date of patent or registration
- (21) Serial number of application
- (22) Date of filing of the application
- (23) Date of exhibition or the date of the earlier filing and the number of application, if any
- (24) Date from which patent may have effect
- (28) Number of designs included in the application
- (30) Data relating to priority (number of application, date of filing of application, two-letter code identifying the authority with whom the priority application was made)
- (31) Number of priority application
- (32) Date of filing of priority application
- (33) Code of the country or regional organization allotting priority application number
- (34) Two-letter code according to WIPO St.3 identifying the authority with which the priority application was made
- (44) Date of publication of design and number of bulletin (the first publication)
- (45) Date of publication of design registered by WIPO and number of bulletin

- (51) International Classification for designs (class and subclass of the Locarno Classification)
- (54) Title of the invention
- (55) Reproduction of the design
- (57) Description of characteristic features of the design including indication of colors
- (58) Date of recording of any kind of amendment in the Register
- (62) Number of the earlier application, registration and document number and if available the date of filing an application in case of divided application
- (71) Name, surname and address of applicant (country code)
- (72) Name, surname of creator (country code)
- (73) Name, surname and address of patent owner (country code)
- (74) Name, surname of representative or patent attorney
- (81) Contracting states concerned
  - II designated contracting states according to the 1960 Act
  - III designated contracting states according to the 1999 Act
- (85) Owner's permanent address
- (86) Owner's nationality
- (87) Owner's residence
- (88) State in which the owner has a real and effective industrial or commercial establishment

## TRADEMARKS

- (111) - Number of registration
- (151) - Date of registration
- (156) - Date of the renewal
- (181) - Expected expiration date of registration
- (186) - Renewal expiration date of registration
- (141) - Date of cancel of duration of the mark
- (210) - Serial number of application
- (220) - Date of filing of the application
- (230) - Data concerning exhibition
- (260) - Number of application, for which favorable decision of examination about registration has been taken (publication number)
- (310) - Number of the first application
- (320) - Date of filing of the first application
- (330) - Code, identifying national or regional Office where the first application was made
- (511) - International Classification of Goods and Services for the purposes of registration of trade marks and/or list of goods and/or services classified according thereto
- (526) - Disclaimer
- (531) - Description of figurative elements of Trade Marks according to the International Classification of the Figurative Elements of Marks

- (540) - Reproduction of Trade Mark
- (550) - Nature and kind of Trade Mark

- (54) HIGH-TEMPERATURE SUPERCONDUCTORS (HTS) RESEARCH CRYOSTAT
- (57) A cryostat includes a case 1 having a lid 3, and coaxially disposed liquid 5 and solid 9 nitrogen vessels placed therein. The case has decomposable construction, and is made with mirror-polished stainless steel, wherein the vessels are hermetically hung on the lid by means of liquid nitrogen pouring and evaporating gas release tubes 6; and siphon thermodemper to reduce heat flows. At that, cylindric high-temperature superconductors (HTS) research cup-chamber 10, wherein a solenoid is placed, is built-in into solid nitrogen vessel, the HTS physical parameters measuring sensors 15 and special purpose rope, whereon the superconducting sample is fastened, and cryosorption pumps 8 and 11, having copper optically opaque porous screen, are built-in into the liquid and solid nitrogen vessels from bellow. Furthermore, vacuum valves 20, emergency valve 16, and inert air inlet valves 19 are located on the lid.

managing blockchain-based tokens or appcoins; software for use in an electronic financial platform; software for processing electronic payments and for transferring funds to and from others; software for transfers of digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens between parties; blockchain platform software; software for use in the management and implementation of digital currency, virtual currency, cryptocurrency, digital and blockchain asset, digitized asset, digital token, crypto token and utility token transactions; software for creating and managing a blockchain platform for use in managing digital currency, virtual currency, cryptocurrency, digital and blockchain asset, digitized asset, digital token, crypto token and utility token accounts; software for managing crypto currency and digital currency accounts; software for use in payments, purchases, and investments using digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; software for use in enabling the electronic transfer of funds to and from others; software for use in managing the conversion of digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens into hard currency; software for developing, deploying, and managing software applications, and integrating software applications for digital currency, virtual currency, cryptocurrency, digital and blockchain asset, digitized asset, digital token, crypto token and utility token accounts; software for use in facilitating the use of a blockchain or distributed electronic ledger to execute and record financial transactions, namely, financial trades made with the use of digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; software and hardware for use in electronically exchanging currency for digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; software for use as an application programming interface (API) for the development, testing, and integration of blockchain software applications; computer hardware for digital currency, virtual currency, cryptocurrency, digital and blockchain asset, and digitized asset mining; security token hardware; electronic currency converters; software, namely, electronic financial platform that accommodates multiple types of payment and transactions in an integrated mobile phone, PDA, and web-based environment; software for creating tokens to be used to pay for products and services, and that may be traded or exchanged for cash value; software for use in securely managing the conversion of digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens into hard currency; software for managing digital cur-

rency, virtual currency, cryptocurrency, digital and blockchain assets, digitized asset, digital token, crypto token and utility token payments, money transfers, and commodity transfers; software for facilitating money transfers, electronic funds transfers, commodity transfers, bill payment remittance, and transferring funds between parties; software for use as an application program interface (API) software for use in computer hardware device identification; software for use in authenticating user access to computers and computer networks; software for use in facilitating secure transactions; software for use in accessing, reading, tracking, and using blockchain technology; software and hardware for managing identity information, access rights to information resources and applications and authentication functionality; software for network identification verification, authentication and management services for security purposes; authentication software for controlling access to and communications with computers and computer networks; magnetically encoded credit cards and payment cards; encryption devices; security tokens; downloadable software for use as a security token; software used in issuing digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; software used in auditing digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; downloadable cryptographic keys for receiving and spending cryptocurrency; software for use in enabling processing and tracking of electronic funds transfers; blockchain-based software platforms and distributed computing software platforms for auditing and verifying digital information and codes; software for social networking in the field of investments.

35 – Marketing, advertising and promotion services; business information; provision of market research information; market research services; sales promotion of the goods and services of others via computer and communication networks; advertising services; commercial management advisory services; commercial management services; advice in the field of commercial strategy; business management consultancy; commercial business administration; provision of commercial and business contact information; company administration and management services; business inquiries; consultancy and advisory services in the field of provision of commercial and business information to companies; market intelligence services; providing product information for third parties via computer and communication networks for facilitating the exchange and sale of products; arranging of contracts, for others via computer and communication networks for the purchase and sale of goods and services; provision of an online marketplace for exchanging and selling of services and products of third parties via computer and communication networks; providing online marketplaces for sellers and buyers of goods

and services; providing online commercial information for connecting sellers with buyers; provision of an online facilities marketplace for connecting sellers with buyers and sellers of goods and services; provision of an online marketplace for selling and trading virtual goods with other users; arranging, negotiating and concluding online commercial transactions for others; providing on-line commercial directory information services; provision of commercial trading information from online databases; online advisory services relating to commercial transactions; arranging of trading transactions online; arranging of trading transactions and commercial contracts; arranging and concluding commercial transactions for others; arranging of trading transactions online; provision of commercial trading information from online databases; online arranging of online trading transactions related to arranging virtual currency exchanges and cryptocurrency transactions; arranging and conducting special events for commercial, promotional or advertising purposes; arranging and conducting special events for business purposes; business advice and provision of business information in the field of blockchain technology; compiling indexes of information using blockchain technology.

36 – Financial services; financial exchange; financial affairs, namely, financial management, financial planning, financial forecasting, financial portfolio management and financial analysis and consultation; financial information provided by electronic means; brokerage services; virtual currency exchange; trading in foreign currency; financial services related to digital currency; financial services related to cryptocurrency; digital currency exchange services; digital currency transfer services; cryptocurrency transfer services; virtual currency services; financial services relating to digital currency wallets; financial services by means of electronic wallets; financial management of electronic wallets; online financial transactions in relation to digital currency; electronic wallet payment services in relation to digital currency; e-wallet payment services; electronic banking services via a global computer network; currency trading; payment processing services; digital currency, virtual currency, cryptocurrency, digital and blockchain asset, digitized asset, digital token, crypto token and utility token trading services; financial information processing for others related to digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; digital currency, virtual currency, cryptocurrency, digital and blockchain asset, digitized asset, digital token, crypto token and utility token payment, exchange and transaction processing services for others; conducting cashless payment transactions; electronic funds transfer services; electronic virtual currency transfer services; electronic funds transfer; providing financial information in the nature of digital currency, virtual currency, cryptocurrency, digital and blockchain asset, digitized

asset, digital token, crypto token and utility token ratings; providing financial information in the fields of digital currency, virtual currency, cryptocurrency, digital and blockchain asset, digitized asset, digital token, crypto token and utility token markets; provision of information relating to finance; financial services, namely, providing virtual currency services for use by members of an online community via a global computer network; issuance of tokens of value; management of digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; financial services, namely, providing a financial exchange for the trading of digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; cryptocurrency trading services; cryptocurrency exchange services; cryptocurrency payment processing; electronic wallet payment services; financial services related to electronic wallets; electronic wallet payment services in relation to virtual currency; processing electronic payments through electronic wallet services; currency management services; currency transfer services; financial services, namely, providing electronic transfer of digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; financial consultation in the field of digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; electronic processing and tracking of electronic funds transfers; currency exchange services; investment management services; management of digital asset investment portfolios; custodial services for financial institutions and funds; provision of financial lists and trading of exchange contracts (swaps) for digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; trading of financial derivatives on digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; exchanging money; clearing and reconciling financial transactions; electronic funds transfer; financial information services; electronic financial trading services; electronic financial trading, namely, trading of the field of digitized assets; electronic financial trading services, namely, management of digital assets; providing on-demand and real-time financial information about digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; providing financial information regarding digital currency, virtual currency, cryptocurrency, digital and blockchain asset, digitized asset, digital token, crypto token and utility token payments from a website; providing information in the fields of investment and finance over computer networks and global communication net-

works; trading of financial instruments electronically; payment services for electronic commerce of financial instruments; electronic commerce payment services; blockchain-based payment verification services; financial consultancy services related to digital currency, virtual currency, cryptocurrency, digital and blockchain asset, digitized asset, digital token, crypto token and utility token financial transactions.

42 – Design and development of computer hardware and software; computer network configuration services; software services related to computer networks; computer programming; computerized data storage services; computer services, namely, providing information in the fields of technology and software development via the internet; computer services, namely, providing information in the fields of technology and software development via a global computer network; computer programming services; computer services, namely, data coding, data security, data encryption, data decryption, and data conversion; computer services, namely, providing technical and technological information in the field of blockchain, virtual currency, digital currency, digital assets and digitized assets; computer services, namely, application programming interface (API) software to allow users to perform electronic business transactions via a global computer network; information technology (IT) services; providing software via computer networks (in particular the Internet), telecommunications networks and mobile data services (application service providing); application service provider (ASP) services, namely, hosting computer software applications of others; application service provider (ASP) services, namely, hosting, managing, developing, and maintaining applications, software, websites and databases in the fields of information technology, blockchain, virtual currency, digital currency, cryptocurrency, and digital assets; application service provider (ASP) services namely, hosting software for use in virtual currency, digital currency, cryptocurrency, and digital asset exchange and transactions; Application service provider (ASP) services namely, hosting software to enable or facilitate the creating, editing, uploading, downloading, accessing, viewing, posting, displaying, commenting on, embedding, transmitting, and sharing or otherwise providing electronic media or information via the internet and communications networks; application service provider services namely, providing application programming interface (API) software to allow users to perform electronic business transactions via a global computer network; Application service provider (ASP) services namely, hosting software to enable or facilitate purchasing goods and services; software as a service (SaaS) services; platform as a service (PaaS) services; providing cloud computing software; providing online non-downloadable software enabling users to invest in digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens;

hosting software enabling users to invest in digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; providing technical and technological consultancy in the field of distributed ledger technology (DLT); providing information on the design, development and hosting of software in the field of distributed ledger technology (DLT) via a website; design, development and hosting of software for and on the basis of distributed ledger technology (DLT); software as a service (SaaS) with software using distributed ledger technology (DLT); providing distributed ledger technology (DLT) in the nature of platforms and online non-downloadable software that utilize distributed ledger technology (DLT); providing non-downloadable distributed ledger technology (DLT) software; providing technical and technological information on distributed ledger technology (DLT); providing consultancy in the field of distributed ledger technology (DLT); design, development and hosting of software for and on the basis of distributed ledger technology (DLT); software as a service (SaaS) with software using distributed ledger technology (DLT); providing software for use in managing portfolios of digital currency, virtual currency, cryptocurrency, digital and blockchain asset, digitized asset, digital token, crypto token and utility token assets; providing software which facilitates the ability of users to view, analyze, record, store, monitor, manage, trade and exchange digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; providing software for sending, receiving, accepting, buying, selling, storing, transmitting, trading and exchanging digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; providing software for implementing and recording financial transactions, for creating accounts and maintaining and managing information about financial transactions on distributed public ledgers and peer to peer payment networks; providing software for processing electronic payments and for transferring funds to and from others; providing non-downloadable software for the collection and distribution of data; providing electronic financial platform software; providing software for use as an application programming interface (API) for the development, testing, and integration of blockchain software applications; providing software for transfers of digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens between parties; providing software for use in financial trading; providing software for use in financial exchange; providing software for use in accessing financial information and market data and trends; providing software for settling financial transactions, for providing authentication of parties to a financial transaction, for maintaining ledgers for finan-

cial transactions; providing software for the management of cryptographic security of electronic transmissions across computer networks; providing software for use with digital currency; providing software for use with cryptocurrency; providing software for use with virtual currency; providing software for use with digital currency wallet and storage services; providing software for digital currency payment and exchange transactions; providing distributed ledger software for use in processing financial transactions; providing software for electronic funds transfer; providing software for currency conversion; providing software for the collection and distribution of data; providing software for payment transactions; providing software for connecting computers to local databases and global computer networks; providing software for creating searchable databases of information and data; providing software for managing and validating digital currency, virtual currency, cryptocurrency, digital asset, blockchain asset, digitized asset, digital token, crypto token and utility token transactions; providing software for creating and managing smart contracts; providing software for managing payment and exchange transactions; providing software for electronically exchanging currency for digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; providing software for use in enabling the electronic transfer of funds to and from others; providing software for creating a decentralized and open source digital currency for use in blockchain-based transactions; providing software for creating a decentralized and open source virtual currency for use in blockchain-based transactions; providing software for creating a decentralized and open source cryptocurrency for use in blockchain-based transactions; providing software for creating a decentralized and open source digitized asset for use in blockchain-based; providing software for creating a decentralized and open source digital token for use in blockchain-based transactions; providing software for encrypting and enabling secure transmission of digital information over the Internet, as well as over other modes of communication between computing devices; providing software for allowing users to calculate parameters related to financial transactions; distributed ledger platform software for use in processing financial transactions; providing software for electronic funds transfer and currency conversion; providing software for use in securely managing the conversion of digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens into hard currency; design, development, maintenance and hosting of a web portal featuring blogs and non-downloadable publications in the nature of articles, columns, and informational guides in the fields of virtual currencies, digital and blockchain assets and market and trading trends; design, development and hosting of a web portal featur-

ring blogs and non-downloadable publications in the nature of articles, columns, and informational guides in the fields of virtual currencies, digital and blockchain assets and market and trading trends; design, development and hosting a website featuring blogs and non-downloadable publications in the nature of articles, columns, and informational guides in the fields of virtual currencies, digital and blockchain assets and market and trading trends; design, development, maintenance and hosting of a web portal for users to access information in the field of virtual currencies, digital and blockchain assets; design, development and hosting of a web portal for users to access information in the field of virtual currencies, digital and blockchain assets; platform as a service (PaaS) featuring computer software platforms for the selling and purchasing digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; software as a service (SaaS) featuring computer software platforms for the selling and purchasing digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; computer services, namely, creating an on-line virtual environment for the selling and purchasing of digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; platform as a service (PaaS) featuring computer software platforms for managing blockchain and token driven, distributed storage computer systems; software as a service (SaaS) featuring computer software platforms for managing blockchain and token driven, distributed storage computer systems; design, development, maintenance and hosting of a decentralized electronic file storage system and open source cloud storage platform; computer services, namely, providing a decentralized electronic object storage platform for end-to-end encrypted and powered by blockchain and blockchain payments; computer services, namely, providing secure, private encrypted cloud storage services; computer services, namely, providing electronic peer-to-peer data storage distributed across unused customer electronic storage resources; computer services, namely, providing open source decentralized cloud storage platform; data encryption services featuring blockchain software technology and peer-to-peer protocols to provide secure, private, and encrypted cloud storage; distributed, electronic storage of electronic media, namely, data, documents, files, text, photos, images, graphics, music, audio, video, and multimedia content; providing software for use as a cryptocurrency wallet; providing software for democratically managing digital exchanges for virtual items through smart contracts; data mining; providing software for use in trading, clearing, transmitting, receiving, storing, confirmation, and financial trading risk management for exchange market transactions in the fields of digital currency,

virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; platform as a service (PaaS) featuring software platforms for authenticating, facilitating, matching, processing, clearing, storing, receiving, tracking, transferring, and submitting trade data, exchanging of trading transaction details, and management of the overall trading lifecycle; software as a service (SaaS) featuring software platforms for authenticating, facilitating, matching, processing, clearing, storing, receiving, tracking, transferring, and submitting trade data, exchanging of trading transaction details, and management of the overall trading lifecycle; providing software for use with blockchain technology; software as a service (SaaS) services featuring software for clearing, allocation, compliance, recording and settlement of trading related to digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; platform as a service (PaaS) services featuring software for clearing, allocation, compliance, recording and settlement of trading related to digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; platform as a service (PaaS) featuring software platforms for facilitating transactions and payments using digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens that allow users to buy from, and sell products and services to others; software as a service (SaaS) featuring software platforms for facilitating transactions and payments using digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens that allow users to buy from, and sell products and services to others; design, development, maintenance and hosting of blockchain-based software platforms and distributed computing software platforms for auditing and verifying digital information and codes; design, development and implementation of audit and security software for blockchain-based platforms; providing software for use in facilitating secure transactions; providing software for auditing digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; software platforms for decentralized blockchain style communication; software platforms for the tracking and support of data transactions; design, development, and implementation of software for distributed computing platforms; design, development, and implementation of software for blockchain; design, development, and implementation of software solutions for digital currency security; design, development, and implementation of software for digital currency, virtual currency, cryptocurrency, digital and blockchain asset, digitized asset, digital token, crypto token and utility token wallets; design, development,

and implementation of software for third-party verification services for digital currency transactions, including but not limited to transactions involving bitcoin currency; providing temporary use of non-downloadable software for use in collecting, transferring, receiving, tracking, storing and transferring bitcoin; providing software for use in collecting, transferring, receiving, tracking, storing and transferring peer-to-peer currency; providing software for users to buy and sell products by using digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; providing software platforms for facilitating transactions and payments using digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens or utility tokens that allow users to buy from, and sell products and services to others; providing software for use in accessing, reading, tracking, and using blockchain technology; technical and technological consultancy services related to digital currency, virtual currency, cryptocurrency, digital and blockchain asset, digitized asset, digital token, crypto token and utility token financial transactions; platform as a service (PaaS) featuring computer software platforms for computer system and application development, deployment, and management; software as a service (SaaS) featuring computer software platforms for computer system and application development, deployment, and management; providing software enabling users to develop, build and run distributed applications through an open-source peer-to-peer smart-contract and payment network platform; providing cloud-based computer network identification verification, authentication and management services for security purposes; secure hosted management, storage and administration of passwords, credentials and identity information relating to persons, accounts and devices for security purposes; design, development and hosting of software for secure hosted management, storage and administration of passwords, credentials and identity information relating to persons, accounts and devices for security purposes; providing authentication software for controlling access to and communications with computers and computer networks; providing software for use in the exchange of virtual items; providing software for selling, trading and managing blockchain-based tokens or appcoins; providing non-downloadable software for a digital exchange; providing technological services to supply digital exchange services and digital currency exchange services; providing a digital exchange, namely, design, development, maintenance and hosting of websites that features technology that enables the exchange of information and data related to digital currency, virtual currency, cryptocurrency, digital and blockchain asset, digitized asset, digital token, crypto token and utility tokens; providing temporary use of on-line non-downloadable software for use in the exchange of virtual items through

creating, selling, trading and managing blockchain-based tokens and virtual currency for use with a digital exchange; providing temporary use of on-line non-downloadable software for democratically managing digital exchanges for virtual items through smart contracts and distributed ledger technology on digital exchange proposals; design, development, maintenance and hosting of a website that features technology that enables the secure exchange of information by users; design, development, maintenance and hosting of a website for digital exchange services for virtual items; providing non-downloadable software for a digital currency exchange; computer software technical support services for software for a digital currency exchange; computer programming for electronic commerce; providing non-downloadable software featuring technology that enables the exchange of information, data and digital currency; providing software for use in issuing digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; providing cloud-based network identification verification, authentication and management services for security purposes; providing software for managing digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized asset, digital token, crypto token and utility token payments, money transfers, and commodity transfers; providing software for facilitating money transfers, electronic funds transfers, commodity transfers, bill payment remittance, and transferring funds between parties; electronic storage services; electronic storage of virtual currency, digital currency and cryptocurrency; providing authentication services for using blockchain-based software technology for cryptocurrency transactions; design, development, maintenance and hosting of a website for connecting sellers with buyers; design, development and hosting of a website featuring an online marketplace for selling and trading virtual goods with other users; electronic data storage services; providing temporary use of on-line non-downloadable software for use in processing and tracking of electronic funds transfers; design, development, maintenance and hosting of a website featuring financial information regarding digital currency, virtual currency, cryptocurrency, digital and blockchain asset, digitized asset, digital token, crypto token and utility token payments; user authentication services using single sign-on technology for online software applications; quality control and authenticating of data via a blockchain; quality control and authenticating of information, messages and data; computer security services in the field of authenticating; quality control and authenticating (control) of data transmitted via telecommunications; providing temporary use of an on-line non-downloadable software for social networking in the field of investments; design, development and hosting of a website featuring information on the development of privacy, security, blockchain and distributed ledger technologies,

and data governance law; providing user authentication services using technology for e-commerce transactions, digital currency payment and exchange transactions, and electronic funds transfer; Blockchain as a Service (Baas).

45 – Providing authentication of personal identification information (identification verification services); online social networking services; online social networking services in the field of investments; user verification services (security services); identification verification services (security services); providing legal information on the development of privacy, security, blockchain and distributed ledger technologies, and data governance law from a website; advice and consultancy, namely, regulatory compliance consultancy in the field of digital currency, virtual currency, cryptocurrency, digital and blockchain asset, digitized asset, digital token, crypto token and utility token applications; legal advice on regulatory compliance in the field of digital currency, virtual currency, cryptocurrency, digital and blockchain asset, digitized asset, digital token, crypto token and utility token applications; online social networking service for investors allowing financial trades and exchange of digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; user authentication and verification services (security services) for payment transactions.

- Sugar content – no more than 4 g/l;
- Titrated/Volatile acidity – no less than 5 g/l;
- Total mass concentration of sulfur dioxide – no more than 80,0 mg/l;
- Iron mass concentration – no more than 10 mg/l;
- Copper mass concentration – no more than 2 mg/l.

**4. SPECIFIC ZONE AVAILABLE AREAS:**

The micro-zone Zegaani includes directly the village Zegaani and lands surrounding it. The micro-zone is located on the North-Eastern slope of Gombori Range. It is bordered by Chermiskhevi from the North and North-East, the village Akhasheni – from the East and South-East, the village Akhasheni and Navistskali Gorge – from the South, and Gombori Range – from the West.

The lands disposed on Papriskhevi Valley belong to the microzone Zegaani, as well; and Cadaster Codes thereof are: 51.08.13.641; 51.08.63.005; 51.08.63.009; 51.08.63.010; 51.08.63.023; 51.08.63.032; 51.08.63.047; 51.08.63.055; 51.08.63.105; 51.058.63.114.

## **5. GRAPE VARIETIES**

The wine Zegaani shall be produced only with the grapes of vine Saperavi cultivated in the micro-zone Zegaani, usage of other varieties is prohibited.

## **6. VINEYARD CULTIVATION, SHAPE OF PRUNING, AND CARE:**

- Micro-zone Zegaani vineyards are situated on 400 -550 m above sea level.
- Density between the rows in the vineyards – 1-2.4 m;
- Density between the vines in the row – 1.0-1.5 m;
- Height of Stem – 70-90 cm;
- Shape of Pruning – one-sided or Georgian two-sided or free.

## **7. GRAPE RIPENESS, VINTAGE, TRANSPORTATION**

- Sugar content intended for wine "Zegaani" production shall be no less than 21%, at the vintage;
- Grapes transportation is permitted only with wooden or plastic boxes, with bodyworks made of stainless steel or painted with special color;
- Usage of polyethylene packages and/or begs is not allowed;
- The grapes shall be protected from dirtying at the transportation.

## **8. VINTAGE AND WINE HARVEST:**

Vintage on 1 ha vineyard shall be no more than 10 tons;

Wine harvest shall be no more than:

- 650 l – from 1 ton grapes;
- 6500 l – from 1 ha vineyard.

## **9. GRAPE PROCESSING, WINEMAKING AND BOTTLING:**

Grapes for producing the wine "Zegaani" shall be only from the vineyards cultivated in the micro-zone Zegaani. The time from vintage to crushing should not exceed 3 hours;

The wine "Zegaani" is made by complete alcoholic fermentation of must in the qvevri;

Only operations, materials and substances provided by the "Technical Regulations on the Definition of General Rules of Wine Production, Permitted Processes, Materials and List of Substances" of the Georgian Legislation №524 of 6.11.2018 is permissible to be applied at the production of the wine "Zegaani".

"Zegaani" is made by incomplete alcoholic fermentation of wild must.

The wine is aged in the qvevri for at least 20 months after its whole alcoholic fermentation, and then, it may be removed from the must – chacha;

Zegaani shall be represented on consumer market only packed in the consumer vessels.

Grapes processing, winemaking, and bottling shall be provided exclusively inside of the micro-zone Zegaani.

## **10. LINK BETWEEN EXCLUSIVE QUALITY, REPUTATION AND GEOGRAPHICAL AREA:**

**Climate** - the climate in the micro-zone is moderately humid, with hot summer and moderately cold winter. The formation of weather in the micro-zone is caused by atmospheric processes developed in

subtropical and moderate areas, and moved from the East and West longitudes. Air annual regular temperature is 12.5°C; at the warmest months – July, August – 23,7–23,5°C , and at the coldest – January – +1,1°C.

Sum of annual temperatures is 4120-3440°C.

Temperature stabile regular gradation up to 10°C begins in the first decade of April, in 5-50 cm soil depth.

First autumn frosts are expected at the end of November (November 27), and the last spring frosts – at March 24, in the micro-zone.

Saperavi buds blossom begins in mid-April, flowering – in late May, and grapes technical ripeness – in the second half of August.

The height of sun from the horizon varies between 70-600, during grape seed formation period, and 50-400 during grape ripening period for Zegaani latitude creating effective radiation regime for the vine on slight (2-3°) slopes inclined towards the North-East.

Sunshine annual duration ranges from 2150-2200 hours, and constitutes 1600 hours – during the vegetation period, in the micro-zone Zegaani. Annual value of total radiation is not higher than 130 kcal/cm<sup>2</sup>, and in the vegetation period it is in the range of 95-100 kcal/cm<sup>2</sup>. Annual direct radiation on horizontal surface is 75 kcal/cm<sup>2</sup>, while scattered radiation is 54 kcal/cm<sup>2</sup>.

### **Soil**

Area is distinguished with brown carbonate soils; agro-characteristics whereof encourage high quality wine production.

Depth of soil is between 80-100 cm. Humus content in soil upper layers is average (4-5%), and decreases sharply into the depth down to 1.4-1.6%. Humus layer general thickness is 40-50 cm. Soil solution reaction is alkaline and very alkaline (8.4-8.7). The soil belongs to light clays with the accumulation of clay in the middle of profile. The soil is strong carbonate from the surface (11-13%), middle part and bottom of profile are very strong carbonate (35-50%). Soil surface is mostly leptosol decreasing towards the depth, and mainly it is presented as fine gravel (pebbles). As a regard of nutrient content the soil is poor with nitrogen and phosphorus available for the plant, but rich with potassium.

The vineyards in the microzone are cultivated on carbonate and clay soils, and in the combination with the mesoclimate it is very favorable for viticulture, and gives the wine special taste and complexity. Warm days and cool nights contribute sharp increase of sugar concentration in the autumn.

Sunshine significant duration in vegetation period (1600 days), and fairly high rate of sum of active temperatures (over 4000 g) ensure must good maturation, so important for this type of wine.

### **Human Factor**

Viticulture and winemaking exist in the micro-zone Zegaani from ancient times. At the beginning of the 19<sup>th</sup> century, the estate of Aleksandre Chavchavadze became prominent here, being notable for significant capital investments and advanced technologies.

In the second half of the 19<sup>th</sup> century, the abolition of serfdom gave powerful impetus to the development of this field and economy, in general. Unpaid laborers were replaced with hired workers, the backward and undeveloped area was quickly engaged in common capitalist relationship, and the process of creation of capitalist-farming households began.

These processes became more tangible for viticulture and winemaking from the 1880s, when the Princes Estates Department massively purchased Kakhetian nobles' estates, including Mukuzani and Zegaani, and rapidly began to modernize vineyards and cellars.

Said processes were further strengthened from the 1920s, when Georgian scientific centers started functioning in Tbilisi and Telavi. New vineyards were cultivated with grafted saplings and wineries equipped with modern technique were built in Mukuzani and Zegaani, and new technologies were introduced.

During all this time, such outstanding professionals<sup>1</sup> as – G. Gogol-Yanovsky, Merle Antoine Mason, Vladimir Staroselsky, Ovcharenko, A. Tushmalishvili, Z. Jorjadze, A. Egorov, S. Cholokashvili, K. Modebadze, G. Beridze, G. Zardiashvili, M. Vardanashvili, V. Shavgulidze and others worked in this field, engaged in scientific activities, were developing and perfecting new technologies, introducing them in production and creating new wines.

So, geographical location of micro-zone Zegaani, distinctive regional climate: mild winter and hot summer, moderate amount of precipitations, diversity of soils, special features of harvested Saperavi grape variety, characteristic of this zone, and local, centuries-old tradition of viticulture and winemaking provides unique organoleptic features of wine "Zegaani", characterizing only this wine.

#### **11. ESPECIAL LABELING RULES:**

The name shall appear on the label, packaging, wine accompanying documents and advertising materials as follows:

In Georgian Character - ზეგაანი

**14. CONTROL BODY OF PRODUCTION:**

State control for observance of production specification and lawful usage of the appellation of origin PDO shall be carried out by LEPL – National Wine Agency, according to the rules established by the legislation of Georgia.

## OKURESHIS USAKHELOURI

**APPLICATION №** 3512/6

**DATE OF APPLICATION:** 2021 20 09

**APPELLATION OF ORIGIN:** OKURESHIS USAKHELOURI

**NAME OF PRODUCT FOR WHICH THE REGISTRATION IS REQUIRED –** Wine

**NAME AND ADDRESS OF APPLICANT:** Usakhelouri Vine & Wine Protection Association, Tsageri Municipality, Village Okureshi, Georgia

**1. NAME:** OKURESHIS USAKHELOURI

**2. ADDITIONAL SIGNS**

**3. TYPE, COLOR, AND BASIC REQUIREMENTS**

"Okureshis Usakhelouri" is red wine; according to sugar content it can be of three different categories: dry, naturally semi-dry or naturally semi-sweet.

Wine organoleptic and physico-chemical characteristics shall to satisfy the following requirements:

- Color – dark cherish red;
- Aroma and taste – tones of peeled red plum and red currant, taste full and cheerful sour, containing rounded, well-balanced tannins;
- Volumetric spirit content for dry wine – no less than 13.5 %, for semi-dry and semi-sweet wines – no less than 11.0 %;
- Sugar content in dry wine – no more than 4 g/l, for semi-dry – 4-18 g/l, and for semi-sweet – 18-45 g/l;
- Titrated acidity – no less than 5 g/l;
- Volatile acidity – no more than 1.2 g/l;
- Total mass concentration of sulfur dioxide in dry wine – no more than 150,0 mg/l, in semi-dry and semi-sweet wines – no more than 200,0 mg/l;
- Sugarless extract mass concentration – no less than 22 g/l.

**4. SPECIFIC ZONE AVAILABLE AREAS**

The micro-zone Okureshis Usakhelouri is situated in Racha-Lechkhumi region, Tsageri administrative municipality, includes the villages: Tskhenistskali: Zubi, Isunderi, Okureshi, Opitara, Ladzgeria, and Makhura disposed on the slopes of right and left banks of the River, on 350-650 m above sea level. The River Tskhenistskali is protected by Khvamli mountain massif from the North and East, and by Askhi – from the West.

The border of micro-zone "Okureshis Usakhelouri" from the West of village Okureshi, where is a confluence of the rivers Tskhenistskali and Lashkodia continues to the East, then – to the North, longwise, dividing line of upper and lower Okureshi, on 650 m altitude; then, it turns on the North-Eastern Tskhakuri and joins Zubi-Khvamli Road, after that it continues along the road, at first to the North, then – to the North-West, until Tskhenistskali bridge, then – to the North, until a confluence of rivers Tskhenistskali and Kvereshula.

Then it continues to the West of river Kvereshula until a mark of 650 m, surrounds the village Opitara at an altitude of 650 m to the East and North, and continues to the River Tskhenistskali; then it follows the

river to the North direction until its confluence with the River Lashkodia; then, the border continues towards the River Kvereshula West direction, until the mark of 650 m, therefrom turns to the South and passes the territories of villages: Zubi, Isunderi, Makhuri, and Ladzgeria, on 650 m altitude; then, turns to the East until the confluence of rivers Tskhenistskali and Cheula, follows the River Cheula East direction, until the mark of 650 m, bypasses the village Opitara from the East and North, on 650 m altitude, and passes to the River Tskhenistskali; then, follows the River Tskhenistskali towards the North direction, until its confluence with the River Lashkodia.

## **5. GRAPE VARIETIES**

Okureshis Usakhelouri shall be produced only with the grapes of vine Usakhelouri cultivated in the micro-zone Okureshis Usakhelouri, usage of other varieties is prohibited.

## **6. VINEYARD CULTIVATION, SHAPE OF PRUNING, AND CARE:**

- Micro-zone Okureshis Usakhelouri for wine "Okureshis Usakhelouri" vineyards are situated on 350-650 m above sea level.
- Density between the rows in the vineyards – 1.3-2.35 m;
- Density between the vines in the row – 0.8-1.4 m;
- Height of Stem – 50-80 cm;
- Shape of Pruning – one-sided or Georgian two-sided or free.

## **7. GRAPE RIPENESS, VINTAGE, TRANSPORTATION**

Okureshis Usakhelouri shall be produced only with ripe grapes. Sugar content intended for winemaking shall be no less than 23%, at the vintage;

- Grapes transportation is permitted only with wooden or plastic boxes, with bodyworks made of stainless steel or painted with special color;
- Usage of polyethylene packages and/or begs is not allowed;
- The grapes shall be protected from dirtying at the transportation.

## **8. VINTAGE AND WINE HARVEST:**

Vintage on 1 ha vineyard shall be no more than 10 tons;

Wine harvest shall be no more than:

- 650 l – from 1 ton grapes;
- 3900 l – from 1 ha vineyard.

## **9. GRAPE PROCESSING, WINEMAKING AND BOTTLING:**

Grapes for producing the wine "Okureshis Usakhelouri" shall be only from the vineyards cultivated in the micro-zone Okureshis Usakhelouri.

The wine "Okureshis Usakhelouri" is made by complete or incomplete alcoholic fermentation of wild must.

Only operations, materials and substances provided by the "Technical Regulations on the Definition of General Rules of Wine Production, Permitted Processes, Materials and List of Substances" of the Georgian Legislation №524 of 6.11.2018 is permissible to be applied at the production of the wine Okureshis Usakhelouri.

Grapes processing and winemaking shall be provided exclusively inside of the micro-zone Okureshis Usakhelouri, and bottling – outside too, but only inside of territory of Georgia.

Grape withdrawal from the micro-zone within the territory of region for grape processing, and wine withdrawal from the region for bottling is permitted under strict accounting and control conditions.

Okureshis Usakhelouri shall be represented on consumer market only packed in the consumer vessels.

## **10. LINK BETWEEN EXCLUSIVE QUALITY, REPUTATION AND GEOGRAPHICAL AREA:**

### **Climate**

The micro-zone "Okureshis Usakhelouri" is a kind of hollow surrounded by rocky ridges creating a special microclimate characterized with humidity – moderately cold winter and long warm summer.

Sunshine annual duration ranges within 1900-2000 hours. Regular air annual temperature is 14.2°C, at the warmest month – August – 22.2°C, and at the coldest – January – no less than +0.5°C.

Duration of vegetation period is 181 days.

Sum of active temperatures rises up to 3500-3700°C, in average. Sum of annual precipitations is 1095 mm.

According to the granulometric composition, the soils belong to heavy loam and light clays. Soils are variously leptosol; at that, soils developed on limestone are characterized with high intensity of leptosol, while low-leptosol and non-leptosol soils are found mostly on the marls.

Vineyards South, South-Eastern and South-Western exposure in the micro-zone, big amount of sunny days, balanced with precipitations, July and August high temperatures, and hot days and cool nights variation, in September and October contribute sharp increase of sugar concentration in the grapes, which is significant factor for the production of this type of wine (vintage takes place at no less than 23% sugar content conditions).

### **Soil**

All above mentioned in combination with loamy and leptosol humus-carbonate soils causes grapes best ripening with the balance of acidity and sugar content, and the accumulation of polyphenols. Anthocyanins, polyphenols and sugar give wine its balance and complexity.

Lechkhumi is considered as one of the best viticulture and winemaking region in Georgia. According with some historical sources, we can conclude that these fields of agriculture play an important role in economic life of this region, since ancient times. This is substantial with the diversity of local vine varieties, and the abundance of winemaking products prepared by the local residents using different methods, as well.

### **Human Factor**

Well-known Georgian scientists – Niko Ketskhoveli, Maksime Ramishvili and Dimitri Tabidze, in ampelography of 1960, confirm the opinion of great Ivane Javakhishvili that Usakhelouri originates from local cultural vine varieties, and its name originates from Lechkhumi, the village Usakhelo disposed on the right bank of the River Lajanuri.

Production of Usakhelouri – wonderful semi-sweet wine on industrial scale, was able after of famous events of 1942, and technology development and implementation for naturally semi-sweet wines preparation.

The wine "Usakhelouri" has received 5 awards, including 2 gold medals, in various international competitions, in second half of the 19<sup>th</sup> century<sup>2</sup>.

Raw material base smallness, and great popularity of wine contribute its exceptionally high market value.
